

B8

Ref. 14-51 / Low pressure: Ref. 14-52

Non-deforming polished stainless steel bowl.
All stainless steel valve.
For maternity.
Centre distance: 70 mm Ø 8
Per box of 25.

100%
Stainless
Steel

B10

Ref. 14-53 / Low pressure: Ref. 14-54

Non-deforming polished stainless steel bowl.
All stainless steel valve.
For early weaners.
Per box of 10.

B15 S

Ref. 14-56 / Low pressure: Ref. 14-57

Non-deforming polished stainless steel bowl.
Same stainless steel valve as for bowls B8 and B10.
For fattening from 25 to 110 kg (55 to 250 lbs).
Oblong holes to match misaligned holes in the wall, allowing straight mounting of the bowl.
Per box of 4.

B15 L

Ref. 14-55

Non-deforming polished stainless steel bowl.
Oversize all stainless steel valve.
For store pigs up to 130 kg (300 lbs).
Per box of 4.

B19

Ref. 14-58

For individual sows, groups, mixed maternity (sows, piglets) and boars.
Non deforming polished stainless steel bowl.
Oversize all stainless steel valve.
4 bowl fixing points.
Per box of 4.

The B10 Bowl Drinker: Non-Spill and Cost-Effective

According to a test carried out by the Chamber of Agriculture of the Pays de la Loire region at the Trinottières farm, **the B10 strongly reduces water spilling** in comparison to the cast iron control drinkers. Spilling was reduced to 4 to 8 % compared to 8 to 12 % for the control bowl drinkers. A substantial effect on water consumption and manure distribution costs. **The estimated amount saved exceeds 900 € a year for a 100 sow breeding farm.**

End Fitting

- Stainless steel (s.s.) valve.
- 1/2" gas M 15 x 21 (s.s.).
- Upper half casing (s.s.).
- Lower half casing (s.s.).
- Screw and Spring (s.s.).

These drinking bowls have to be mounted to the wall using a stainless steel fixture (not included).

The Added-Value of Our Products:

The valve is attached to the bowl by means of two stainless steel screws, mounted using thread sealant and without welding, so they can be disassembled more easily from the back.

OUR ADVICE

Livestock type	Daily water needs
SOW in season	12-17 l. (3-4.5 USG)
SOW with farrow	15-20 l. (4-5 USG)
PIGLET fed by the mother	0,2-0,4 l. (0.05-0.11 USG)
weaner	1-6 l. (1/4-2 USG)
PIG fed by trough	4-12 l. (1-3 USG)
